

Dear Father Francesco,

Thank you for your quick respond to my previous letter. This time I have been too busy to make preparations for the program.

I am attaching a letter that we are going to send to the parents about the program. However, before sending the letter to the parents we need to clarify a few questions (they are mainly about financial issues) so that we can give the families exact information).

Please, make suggestions about the tasks and the responsible people, also about costs in the table below:

task				comments
	our suggestion	Prep School' s suggestion		
visa, travel documents	Hungarian families	OK		ESTA visa (according to the consulate, this is sufficient))
flight ticket	Hungarian families	OK		
insurance	Hungarian families	OK		
participation in school life	Prep School			Monday to Friday they will follow the same schedule of the family hosting them. They will have full class time, and they will be able to participate in some sports, and other clubs and activities.
meals during the day		Families and Prep School		Breakfast can be in the families. Lunch is taken at the school. Students can bring their lunch and eat it in the Cafeteria, or they can buy the lunch at School.
finding host families	Prep School	ok		We are trying to get the help of Hungarian families living in the USA We will look for families who may host them and bring them to the school together with their children.
host families' expenses				We are trying to find funds for this, but help would be good Most of the times families host students and don't ask anything in change, but it should be good if they can offer them some amount of money if they will stay one month.

travel to and from school				how can our students get to school? With our students families.
suggested weekend programs	Philadelphia, Washington DC, New York City,			
organisers and responsible people for weekend programs				Was mentioned that one member of the Hungarian community could help on this. If not, I can ask some of our teachers to take care of it.
cost of weekend programs	?????			According with your plan. We can help you to budget it.
suggested time	between The beginning of Octoben and the middle of November (30 days)			It could work for us
responsible for the program	principal of schools			
Contact person	Sándor Éva (English teacher)			

One more question: Am I right thinking that we can send girls as well?

Our school is only boys school. However, you can send also girls

I hope that all goes well. Let's keep in touch.

OTHER PRACTICAL QUESTIONS:

- Power electricity: 120 V, with American wall plug.
- Health Insurance: you need to add a document in which is stated that the families allow Devon Preparatory School take them to the doctors, and follow all the process as a delegation of their parents.
- Our airport is Philadelphia International (PHL) when you will buy the plane tickets, take this as your destination.
- Weather: can be mild (autumn) or cold with some snow episodes.

Best regards,

Futó Béla
